KNAUF INSULATION EXPERIENCE CENTER

Regionalni center za trajnostno gradnjo
Regional Center for sustainable construction

O STAVBI

Knauf Insulation Experience Center (KIEXC), ki se nahaja **v Škofji Loki, je v lasti podjetja Knauf Insulation**. KIEXC je **učni primer trajnostne gradnje na evropski ravni**, stavba sama pa je bila že od samega začetka načrtovana kot prikaz pionirskega pristopa k prihodnosti trajnostne gradnje.

Center deluje kot **demonstracijsko-izobraževalno središče**, v katerem prikazujemo najinovativnejše izolacijske rešitve in primere dobrih praks **trajnostne gradnje** partnerskih podjetij na 832 kvadratnih metrih površine.

TRAJNOSTNA GRADNJA

- Knauf Insulation Experience Center, načrtovan po **BIM** metodologiji (Revit), je zgrajen v skladu z najstrožjimi kriteriji in standardi ene od vodilnih evropskih shem trajnostne gradnje – **DGNB**.
- Center bo tako prva slovenska novogradnja certificirana po kriterijih DGNB standardov – **Certifikat DGNB**.
- KIEXC pridobiva tudi **Certifikat AKTIVNA HIŠA**.
- KIEXC je pilotni projekt Evropske komisije pri pripravi novih smernic trajnostne gradnje **Level(s)**.
- Prav tako je tudi pilotni projekt za pripravo slovenskih smernic trajnostne gradnje v okviru Ministrstva za okolje in prostor.

Knauf Insulation Experience Center v prvi vrsti prispeva k boljši prepoznavnosti trajnostne gradnje v Sloveniji in Evropi, saj sledi kriterijem, ki vrednotijo življenjski cikel stavb. Naše izkušnje, pridobljene z gradnjo, tako aktivno doprinašajo k prizadevanjem stroke v želji po gradnji okolju in ljudem prijaznejših stavb. Hkrati je tudi zagotovilo kakovostnega, kvalitativnega razvoja naših izdelkov in rešitev tudi v prihodnje.

SUSTAINABLE CONSTRUCTION

- The Knauf Insulation Experience Center was planned with BIM methodology (Revit) and is constructed under the most strict **DGNB Green building rating schemes**.
- The center will be the **first newly built Slovene building to receive a DGNB Certificate**.
- KIEXC is in the process of receiving the **ACTIVE HOUSE Certificate**.
- KIEXC is a Pilot project of sustainable construction for the European Commission known as **Level(s)** – guidelines for sustainable construction.
- And also a Pilot project for sustainable construction for the Slovenia – Ministry of the Environment and Spatial Planning.

The Knauf Insulation Experience Center contributes, first and foremost, to the increased awareness of sustainable construction in Slovenia and Europe, as it builds on the criteria for the life cycle assessment of buildings. The experience we have gained through construction thus actively contributes to the efforts of the profession, aspiring to build environmentally- and people-friendly buildings. It is also a guarantee that we will continue to develop quality products and solutions.

PREDNOSTI

- Center kot stavba je **vzorčni primer trajnostne gradnje** in prikaz najboljših **izolacijskih rešitev za trajnostno gradnjo**.
