

KNAUF INSULATION EXPERIENCE CENTER – WHERE BUSINESS MEETING BECOMES AN EXPERIENCE

1. CENTRE FOR SUSTAINABLE CONSTRUCTION

In May, the Knauf Insulation Experience Centre KIEXC received an Open House of Slovenia Award for its contribution to excellent architecture. The OHS is committed to a decided respect for and appreciation of good construction. They are opening the door to excellent architecture and spatial planning in order to get to know and understand the quality planning of space.

The aim of the festival is to disseminate examples of best practice and to educate the public on the value of well-designed space. The OHS is part of the international Open House Worldwide network, which brings together similar organizations from around the world. As part of the festival, an open exhibition of the best architecture included in the OHS programme was staged along the Jakopič promenade in Ljubljana's Tivoli Park. And, of course, the KIEXC was also presented there.

2. BUSINESS EXPERIENCE IN THE KNAUF INSULATION EXPERIENCE CENTRE (KIEXC)

Here are just some of the events recently held at the KIEXC:

EuroACE conference

The European Alliance of Companies for Energy Efficiency in Buildings organized a conference in Slovenia on: Energy Efficiency in Buildings & Renovation in Southeast Europe.

Knauf Insulation Croatia – architects and builders visiting the KIEXC

Our colleagues from Novi Marof brought with them important stakeholders, architects and builders to a training course.

Visiting colleagues from the Knauf Insulation plant in Krupka, Czech Republic

We prepared an interesting team-building programme for our Czech colleagues.

A visit by the Knauf Insulation sales team from Siberia

Our Russian colleagues from Siberia were familiarised with how to build sustainably and how to create market awareness about the importance of sustainable construction.

3. HIGHLIGHTS AND NEWS

It is easy to book a date for your event. You are kindly invited to book a date for your event on our website. You are only three clicks away from sending us an inquiry, which we will be happy to answer promptly.

We love green. The cupola on our green roof has been further greened with ivy.

4. WHAT THEY SAID ABOUT US

»I had a very important meeting and wanted my guests to feel great and to work in the best possible conditions. I opted for the KIEXC, and it was the right decision! It was an amazing experience. Very professional people and cutting-edge technology. Excellent conditions for a successful meeting.«

Catherine Diaz, Personal assistant to the Group Marketing and Sales Director, Knauf Insulation

»On 12 June 2019, we visited the KIEXC in Škofja Loka, together with ten colleagues from the Krupka plant in the Czech Republic. During our stay there, we had the opportunity to learn not only about theoretical and business problems in the region, but also got a lot of information on the construction of the KIEXC. We then explored the building both in the real world and virtually. It was a truly unique experience. The virtual experience enabled us to look at pieces of walls, floors, and roofs to find out which insulation solutions were employed. The braver of us, however, jumped into the pool (virtually) and tried our hand at archery. We wish we could have stayed a few hours longer! We recommend the experience to everyone – you will not regret it! Thank you for the warm welcome and hospitality!«

Susan Nouák Razzakouá, Assistant to the Plant Manager at Knauf Insulation, Krupka
